

KIRTANLAL
INTERNATIONAL

A LEGACY OF TRUST. A TRADITION OF EXCELLENCE.

Since 1966

A well diversified multi-faceted conglomerate

PROFILE

With great pleasure we would like to introduce our company Kirtanlal International DMCC, which is part of the Kirtanlal Group of companies with over 47 years experience in oil, gas, petrochemical and power industries. Today, the group represents reputed worldwide manufacturers for flat, long and tubular products in carbon, alloy, stainless and exotic steels.

Kirtanlal International DMCC, incorporated in 2007 as a free zone company in Dubai, UAE, has performed and gained experience in the supply of Carbon Steel Seamless Tubular Products to Greenfield projects as well as projects, MRO/shortfall requirements. This experience includes and extends to Offshore and Onshore Production Facilities; Pipelines, Terminals and Storage Tanks; Petrochemicals and Refining; Energy, Water, Engineering and Construction projects.

MISSION STATEMENT

Kirtanlal International DMCC is committed to delivering exceptional, personalised, flexible service to international and domestic customers. We understand our customer's needs and will work hard to provide innovative, creative, genuine products and service through teamwork and self evaluation.

**Over 47 years
of delivering
excellence.
One trusted
name.**

ABOUT US

Kirtanlal is a major importer and stockist of Carbon Steel Seamless Line Pipes, Process Pipes and Structural Tubulars, maintaining a stock of over 25,000 M/Tons in sizes from 1/2" to 20", conforming to API, ASTM and EN standards in various wall thicknesses and grades.

With 35,000 square metres of state-of-the-art warehousing facilities in Jebel Ali Free Zone, we are able to handle complex project packages in terms of material handling and storage facilities. A fully automated ERP system coupled with expertise & efficiency in logistics supplement our strength.

Our wide network of fully backed integrated sales and marketing offices in key markets of Asia and Africa continues to expand and evolve, ensuring that documentation, communication and service meet customer's requirements. Our marketing activities are focused on securing the trust of our customers.

CLIENT PROFILE

- End Users
- EPCs
- Fabricators
- Maintenance Contractors

Accomplished Credentials. Varied Solutions.

PRODUCTS

Kirtanlal has an exceptionally wide range of seamless carbon steel pipes, including special grades. Our principal mills are approved by all major oil and gas companies worldwide, and enjoy a long supply record, advanced production facilities and comprehensive product range.

STOCK RANGE :

1. Carbon Steel Seamless Pipes for high temperature service / pipelines
Standards : ASTM A-53/ASTM A106/API 5L PSL-1
Grade : B/X 42
Size Range : ½" to 20"
Schedules : 20, 30, 40, STD, 60, XS, 80, 100, 120, 160 and XXS
2. Carbon Steel Seamless High Yield Line Pipes
Standard : API 5L PSL-2
Grade : X52
Size range : ½" to 20"
Schedules : 20, 30, 40, STD, 60, XS, 80, 100, 120, 160 and XXS
3. Carbon Steel Seamless Pipes for low temperature service
Standard : ASTM A 333
Grade : 6
Size Range : ½" to 20"
Schedules : 20, 30, 40, STD, 60, XS, 80, 100, 120, 160 and XXS
4. Carbon Steel Seamless Structural Tubulars
Standard : EN-10225
Grade : S355G15+N
Size Range : 3" to 20"
WT : 6.35mm to 25.4mm

Where pushing the frontiers of performance is an everyday activity

ArcelorMittal

JFE Steel Corporation

- Plain Ends up to 1-1/2" and Beveled ends 2" and above.
- Single Random Length (SRL) and Double random Length (DRL)
- Outside Protected with Black Lacquer and Ends Protected with Plastic Caps
- Certified According to EN 10204/3.2 as per relevant standards + NACE MR-0175 + NACE MR-0103

Pipes stocked are limited to the following manufacturers:

- ArcelorMittal Tubular Products Ostrava, Czech Republic
- ArcelorMittal Tubular Products Roman, Romania
- ArcelorMittal South Africa
- JFE Steel Corporation, Japan

VALUE ADDED SERVICES

Based on our strategic partnership with ArcelorMittal Tubular mills worldwide, we provide optimum piping solutions to our clients, based on a combination of stock and direct mill deliveries, as per project requirements. For direct mill deliveries, our supplying possibilities cover the entire production range of the mills, including line pipes up to grade X70, boiler pipes, OCTG, custom-made according to project technical delivery requirements.

In collaboration with qualified sub-suppliers, we can perform the following activities on the tubular products we supply when required by our customers:

- Galvanizing
- 3LPE, FBE, coal tar enamel coating
- Cutting & Beveling
- Threading & Coupling
- Cement mortar lining
- Welding prefabrication work
- NDT inspection and testing
- Destructive testing
- HIC / SSC Testing
- Third party inspection

- Amana Pipelines
- Larsen & Toubro Limited
- Bharat Heavy Electricals Limited
- Petrofac International
- Alsa Engineering
- Dubai Dry Docks
- Al Jaber Energy Services

**Quality is
never an
accident.**

QUALITY ASSURANCE

Our Quality Management Systems have ISO 9001:2008 accreditation in place, emphasizing on efficient operations and high standard of service quality. Our established processes guarantee that both stock and mill deliveries satisfy our customers' specifications. All incoming and outgoing materials are subject to the inspection and approval of our independent Quality Assurance Team. Our customized Document Management System enables instant access to approved documentation and certificates. Our sophisticated ERP system allows us to control the inventory on a piece-wise basis as opposed to batch-wise systems conventionally used by most stockists. This ensures inward-outward traceability and completely eliminates all possibilities of fraudulent application of our supplied products.

We are amongst an extremely small group of stockists in the Middle East which can guarantee to stock and sell only genuine products. All our test certificates are traceable for at least 7 years.

QUALITY OBJECTIVES

- Supplying products of the highest quality standards
- Recognizing customer expectations
- Providing a work environment that promotes competency, teamwork, empowerment and accountability.
- Developing performance indicators to assess customer satisfaction
